

Wet Felting a Vessel ~ Bowl Kit

Supplies

- Wool fibers – 1oz to 4oz per vessel
- Embellishment fibers such as: Viscose, Silk Tops, Sari Silk Waste, Bamboo Tops, Locks, Silk fabrics, Wool Nepps, yarns, etc.
- Resist material
- Wet felting mesh
- Thin plastic sheeting
- Nuno Bubble
- Olive oil soap
- Water – room temperature
- Ball brause or sponge
- Towels
- Dowel 1.5"

[Our Wet Felting a Vessel ~ Bowl Kit](#) has all of the fiber you need for this project.

You can make two 2oz vessels with the wool included, or make one 1oz vessel and a 3oz vessel, etc. The embellishment packs will go a long way, but if working with them is new, just learn as you go and have fun! Whether you chose the Coarse Fiber or Fine Fiber kit, the video below will show you how to layout your fiber and how to wet felt your vessel. Please note, the coarse fibers may be a little more resistant to using fabrics, so add a bit of wool along the edges to help anchor them down. Included in the kit is a 9" x 9" thin resist. We used round resists with diameters around 8.25" and smaller and smaller for our vessels.

For wet felting tools, our Basic Wet Felting Starter Set is perfect as it includes plastic sheeting, mesh and nuno bubble and more. Shop our wet felting tool selection here: <https://feltingsupplies.livingfelt.com/wet-felting>

Felt along with our free tutorial for wet felting a vessel :

***Remember to divide your wool before getting started! For whatever size bowl/vessel you are making, divide your wool evenly between side A and B before beginning your layout. This will help you control how much wool you are laying down.**
